Safwan Nabeel

Dammam, Saudi Arabia | safwanxnabeel@outlook.com | LinkedIn | GitHub | Google Scholar

Research Interests

Visual and Multimodal Machine Learning, Robustness and Trustworthy ML

Education

Imam Abdulrahman bin Faisal University (IAU) Aug 2020 – May 2025
BSc in Computer Information Systems – 2nd Honors
GPA: 4.34/5.00 | Class Rank: 2nd/65

Research & Publications

- **TWASEL at SignEval 2026: Adaptive Multi-Stream Pose Fusion for Continuous Sign Language Recognition**
  Sadam Al-Azani, **Safwan Nabeel**, Qasim Al Mahfood, Mohanad Mohamed. *CVPR Workshops (CVPRW)*, 2026.
  Gated fusion of body, hand and face pose streams lowers word error rate to 16.62% from a reported 27.4% baseline.
- **Anonymized but Not Anonymous: Multi-Cue Identity Leakage in Privacy-Preserving Action Recognition**
  Safwan Nabeel, Farah AlShiha, Muzammil Behzad. *Accepted at ACCV 2026, Osaka, December 14–18, 2026*.
  In a cross-view test, face blur cuts face matching from 83.1% to 3.4%, yet appearance still identifies 84.7% of clips.
- **Are Crowd Counts Reliable? Post-Hoc Reliability Assessment for Crowd Counting Under Dataset Shift**
  Safwan Nabeel, Sadam Al-Azani, Muhammad Shahid Jabbar. *Under Review at International Journal of Computer Vision*.
  A risk score from a frozen counter's own output flags unreliable counts, cutting error on kept images by 19–68%.
- **Joint-Source Dependence in Cross-Video Question Answering: An Interventional Audit**
  Safwan Nabeel, Almaan Khan, Sadam Al-Azani, Mohanad Mohamed. *Under Review at Pattern Recognition*.
  Four vision-language models needed more than one video on only 0.6–5.4% of cross-video questions.

Professional Experience

Junior Machine Learning Developer, BestCircle AI (Dhahran Techno Valley), Saudi Arabia Sep 2025 – Present
- Developed automated engineering review systems that use OCR and VLMs to check documents against client QA/QC criteria, inspect images and write reports, cutting review time from two days to under 10 minutes.
- Built time-series anomaly detection and predictive maintenance models using pressure and flow sensor data for pipeline leak detection and early equipment fault prediction.

Teaching Assistant (Contract), KAUST Academy (Thuwal, Saudi Arabia) Jan 2026 – Aug 2026
- **SRSI, Jul – Aug 2026:** Co-mentored three high-school students through six-week AI research projects.
- **AI Specialization, Jan 2026:** Taught lab sessions for about 250 students in a one-week AI program.

AI Trainee, KAUST (Thuwal, Saudi Arabia) Jun 2025 – Aug 2025
- Completed an intensive AI specialization (NLP, RL, unsupervised learning), selected in the top 1% (100 of 10,000+).

JRCAI Research Intern, KFUPM (Dhahran, Saudi Arabia) Jun 2024 – Aug 2024
- Worked on improving crowd estimation models using CNN and Vision Transformer architectures.

Awards & Honors

- 2nd Place in CIS Major, Academic Excellence, IAU May 2025
- 2nd Place in GSR Hackathon, Global Student's Research Conference, KFUPM Feb 2025
- Best Poster Award, Undergraduate AI Projects Showcase, KFUPM Dec 2024
- 1st Place, Cybersecurity Category, Future Technologies, MCIT 2024
- Top 10 Globally & People's Choice Award Winner, Secure IT Cup, Kaspersky Dec 2023

Projects

Real-Time Video-to-Text Summarization System
- Training-free YOLOv11n, Florence-2 and Command-R+ pipeline that turns live video into rolling text summaries.

Skills

Machine Learning & Computer Vision: CNNs, Vision Transformers, Vision-Language Models, Anomaly Detection.

Programming & Tools: Python, Java, SQL, JavaScript, PHP, NumPy, Pandas, FastAPI, Git.

Security & Compliance: Vulnerability Assessment, Wireshark, Nmap, ISMS Auditing, Risk Management.

Languages: English (Fluent), Bengali (Native)

Certifications

ISO/IEC 27001 Lead Auditor, Mastermind Assurance, Jun 2025
Junior Penetration Tester, INE Security, Apr 2025
Certified Digital Forensics Professional, INE Security, Feb 2025
Certified in Cybersecurity (CC), ISC2, Jan 2024
